	Bookcase					✓		8			
	Coffee table					✓					heavy
	Stereo				✓						5 x speakers
	Cd rack					✓		2			
❖ Totals			↑								

❖ Leave the **grey** volume column and **totals** column blank for us to fill

Simply fill the columns left to right with pen or pencil as to the sample above. **Small Medium or large** is all that is required. By discussion we will identify any discrepancies. Leave a few lines between each room blank in case you need to revisit or add an item or two.

When describing cartons a Dishpack is just over knee high. A Bookbox is half the size of a dishpack. Clothing boxes are flattish boxes able to accommodate most garments on their hangers lying flat.

If you are using recycled cartons from various sources, large medium and small will suffice. We will identify any differences by discussion

In the comments column record any useful observations, dismantled, fragile, heavy, etc;
